

EGS2110P

8-port Gigabit with 8-port AF PoE Smart Switch

PRODUCT OVERVIEW

EnGenius Smart PoE Switch family is special tailored for Access Points and IP surveillance applications. EGS2110P, one of the members from EnGenius Smart PoE Switch family offers 8-Gigabit ports with IEEE802.3af PoE Support on port 1-8.

Small desktop metal housing design can fulfill the most environment request of Small Business.

EGS2110P supports Power-over-Ethernet (PoE) on port 1-8, which compliant with IEEE802.3af standards, delivering up to 15.4 watts along with the connected Ethernet cables to powered devices.

The EGS2110P supports VLAN, QoS and IGMP Snooping features for priority based application, such as IP surveillance or video/voice transitions. Moreover, it offers PoE Management on ports or even priority-base configuration.
