Product Overview

Solwise 500AV-SMT– 500Mbps HomePlug AV Ethernet Adapter with Smart-Link

Main Benefits

- *Advance Green low-power modes;*
- *Smart Link engine incorporate an Atheros AR7400 chipset and two AR1500 AFEs;*
- *It is capable of transmitting over the standard Live-Neutral configuration or over Live-Protective Earth;*
- *It automatically selects the best path for communication, providing improved network coverage in even the most challenging powerline environments;*
- *High-speed 500Mbps connect on 3D TV, IP Camera and game consoles;*
- *“Simple Connect” feature allow users easy to pair more then two HomePlugs together;*
- *For Power Saving, the 500AV-SMT complies with European Code of Conduct (CoC) on Energy Efficiency and the European Union’s Energy-using Products (EuP) Directive for low power, green energy operation;*
- *Compliance with IEEE1901 and Homeplug AV.*

Solwise 500AV-SMT– 500Mbps HomePlug AV Ethernet Adapter with Smart-Link

Main Specification

Protocol/Standards

- IEEE 1901/HomePlug AV
- Co- existence with HomePlug 1.0 Nodes
- IEEE 802.3 10/100/1000 Ethernet (1Gbps)
- 10/100/1000 Mbps AutoMDI/MDIX Support
- Compliant to EuP

Security Support

- Utilise Windows 98SE, 2000, ME, XP 32bit, Vista 32bit, Window 7 to enable encryption

Power Consumption

- 4.5 Watt (230Vac)

Weight and Dimensions

- TBD, 62mm(H) x 92mm(W) x 42mm(D)
